THE BIOGRAPHIES

ME has prepared for his/her performance in "Perfectly Flawed" for what seems most of his/her post-pubescent life. ME has had roles in "The Girl Next Door," "Just a Friend," "Waiting on June," and "Baby Put Down That Knife." ME thanks his/her family and friends for the non-expiring support, and his/her college TA for that "B" in Spanish class.

YOU is making her/his first appearance in "Perfectly Flawed." Though this is not his/her first production, the full extent of their experience is not yet known. We are looking forward to their role here and if it all works out, hope to be seeing him/her again in future appearances real soon.

BEST FRIEND has worked in and out of roles with ME for many years and has been the over-reasonable source of reassurance during the darkest and lightest moments of their history together. BEST FRIEND has had catalytic parts in "The Girl Next Door" and "Waiting on June" and is looking forward to their contribution to tonight's performance.

NARRATOR has been around traditional and non-traditional theater for many years acting as the benevolent, all seeing, inner voices of our cast, settings, scenes, and sketches. We are happy to have NARRATOR with us during YOU's first performance in "Perfectly Flawed," and promise he will not disturb the shenanigans, happenings, and goings on.
